Experience

Frontend Developer

PT Uninet Bhaktinusa (Group of Kompas Gramedia)

Jakarta - Contract
Sep 2025 - Present

I am responsible for slicing designs created by graphic designers and implementing them into website layouts using HTML, CSS, JavaScript/jQuery, and Tailwind CSS. I ensure the designs function properly and enhance them with interactive scroll-based animations to improve user experience. The websites are optimized to be responsive across various devices, especially mobile, with clean and consistent layouts.

UI/UX Designer, Web Designer & Frontend Developer

PT Dewanstudio Media Digital

Tangerang - Full Time
Mar 2021 - Aug 2025

Responsible for designing mobile-responsive websites, starting with project scope meetings and receiving wireframes from the Project Manager. I create mockups using Figma, revise them based on feedback, and finalize the design. I then implement the design using HTML, CSS/SCSS, or develop it on WordPress. This role has enhanced my communication skills and ability to deliver design solutions aligned with user and business needs.

Graphic Web Designer

PT Dewanstudio Media Digital

Tangerang - Full Time
Mar 2018 - Mar 2021

Design websites with mobile responsiveness, starting with project scope meetings and receiving wireframes from the Project Manager. I develop mockups using Figma, revise based on feedback, and implement the final design in WordPress, utilizing HTML, CSS, and SCSS for layout and styling. My role involves collaborating with stakeholders to ensure designs align with user needs and business goals.

Graphic Designer

PT Dewanstudio Media Digital

Tangerang - Full Time
Mar 2016 - Mar 2018

Involved in graphic design projects, including logos, books, banners, and merchandise, with print-ready versions. I start by defining the project scope with the team, then create mockups using Adobe Illustrator, InDesign, or Photoshop. After revisions, I prepare final files in print-ready formats and deliver them to clients or submit for production.

Content Admin

PT Dewanstudio Media Digital

Tangerang - Full Time
Mar 2015 - Mar 2016

I am responsible for managing and updating content on client websites, including articles, products, events, and other elements. This process involves uploading content through a CMS (Content Management System) and ensuring updates are made according to a set schedule, typically three times a week per website.

Graphic Designer

PT Besta Media Mandiri

Tangerang - Full Time
Jan 2014 - Feb 2015

Designing ad layouts for print media such as Media Indonesia, Bisnis, Tempo, and Kompas. Receiving briefs from the Project Manager, creating designs using CorelDraw, and making revisions until the design is approved. After finalization, preparing the files for production and sending them to the team for publication according to the specified schedule.

Education

Mercu Buana University

Bachelor of Design, GPA 3.57

Jakarta, Indonesia. Graduated in 2020
